

MATERNAL, NEWBORN, CHILD & ADOLESCENT HEALTH GLOBAL STRATEGY

Data sources for the 60 indicators

INDICATOR	Civil Registration and Vital Statistics (CRVS)	Survey	Facility	Other
SURVIVE				
Maternal mortality ratio	Available	Available	Potential	
Skilled attendance at birth		Available	Available	
Antenatal care 4+ visits		Available	Available	
Postpartum contact		Available	Available	
Neonatal mortality	Available	Available		
Stillbirth rate		Available	Available	
Early breastfeeding initiation		Available		
Postnatal care (contact)		Available	Available	
Antenatal care syphilis screening		Available	Available	
Under-5 mortality	Available	Available		
Oral rehydration salts treatment		Available		
Pneumonia care seeking		Available		
Exclusive breastfeeding		Available		
Full immunization coverage		Available	Available	
Insecticide-treated net coverage among children	Available	Available		Available
HIV incidence		Available		

INDICATOR	Civil Registration and Vital Statistics (CRVS)	Survey	Facility	Other
Malaria incident cases per 1000 persons per year (SDG 3.3.3)		Available		Available
Antiretroviral therapy coverage			Available	
Household nets(ITN) and spraying(IRS)				
Tobacco use (age-sex disaggregated)		Available		
Noncommunicable disease mortality (ages 30-70)	Available	Available	Potential	
Suicide mortality rate	Available	Available		
Adolescent mortality rate	Available	Potential		
Cervical cancer screening		Available	Potential	
THRIVE				
Child stunting		Available		
Malnutrition		Available		
Adolescent insufficient physical activity		Available		
Anaemia prevalence disaggregated		Available		
Children minimum acceptable diet		Available		
Family planning need satisfied		Available	Potential	
Adolescent birth rate		Available		
Informed decisions by women		Available		
Country laws – sexual and reproductive health (SRH) access				Available
SRH knowledge (ages 15-24)		Available		
Children developmentally on track		Available		

INDICATOR	Civil Registration and Vital Statistics (CRVS)	Survey	Facility	Other
Organized learning		Available		Available
Pollution-related mortality and illness	Available	Available		
Clean fuels and technology		Available		Available
Essential services, tracer health interventions		Available	Available	Potential
Current country health and RMNCAH expenditure per capita				Available
Out-of-pocket health expenditure				Available
Financial protection		Available		Available
TRANSFORM				
Poverty		Available		Available
Reading and math proficiency		Available		Available
Early marriage	Available	Available		
Partner violence		Available		
Female genital mutilation/cutting		Available		
Laws against discrimination				Available
Sexual violence against women and men		Available		
HIV post-exposure prophylaxis – rape survivors		Available	Potential	
Safe drinking water		Available		
Sanitation		Available		
Research and development expenditure				Available
Birth (death) registration	Available	Available		

INDICATOR	Civil Registration and Vital Statistics (CRVS)	Survey	Facility	Other
Census				Available
Effective monitoring frameworks				Available
LEAVE NO ONE BEHIND				
Data disaggregation				Available
Treaties for women's, children's and adolescents' health and rights				Available
Humanitarian Response Index				Available
